

SOHOsmart

IT Solutions

SMB Utility Computing

Let us handle IT!

SOHOsmart™ is the latest network platform built to serve small businesses nationwide. SOHOsmart™ gives small businesses the same network platform that big businesses enjoy - at an affordable fixed monthly price.

Our platform is a complete solution . . . hardware, software, support, and security for one low monthly fee. No long term contracts, no expensive equipment, no hassles . . . just technology that works.

Technology...

SOHOsmart™ provides your business with the latest in hardware technology and networking software.

Our partnership with HP provides you with the latest in innovative server technology. HP is an industry leader in providing fast, feature rich and stable desktop and server solutions.

Our Partnership with Microsoft gives you access to the latest in Microsoft Server and desktop technologies. Our solution includes the Microsoft SBS 2003 Server platform, including Microsoft Exchange 2003 and SQL Server 2000. This powerful combination will take your company to the next level by providing you with a number of great possibilities.

Don't roll the dice with your small business...

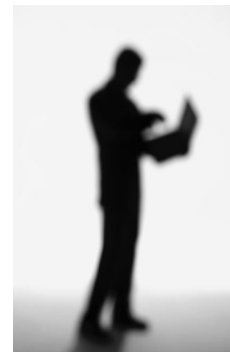

SOHOsmart™ is a subscription based network platform built to serve small businesses nationwide. SOHOsmart™ gives small businesses the same network platform that big businesses enjoy - at an affordable fixed monthly price.

Our platform is a complete solution . . . hardware, software, backups, anti-virus, anti-spam, 24x7 monitoring, support, and security for one low monthly fee. No long term contracts, no expensive equipment, no hassles . . . just technology that works.

The SOHOsmart™ promise...

24x7x365 we are there. Providing support 24 hours per day every day of the year! Desktops, Servers, Networks, Printers, Applications; the buck stops at our help desk!

There is a light at the end of the tunnel. Support is never an afterthought at SOHOsmart™, it is the core of our business. We believe that your job is your business, and ours is to help insure your success. Technology can be a potent tool, but poorly implemented, maintained, and supported it can also cripple a business. Our goal is to anticipate your needs, facilitate your productivity, and enhance your competitiveness..

SMB Utility Computing
